DETAILED ACTION

1. Receipt is acknowledged of the response filed on 12 September 2007, which has been entered in the file.

Allowable Subject Matter

2. Claims 9-19 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The best prior art of the records to Cahill et al. (US 5,727,367) discloses a packaging method and apparatus for providing a web wherein the machine performs creasing or shaping in the web,

Pinchen et al. (US 7,188,774) discloses a method and an apparatus for making articles comprising means for printing first and second indicium on a paper web.

However, Cahill et al. and Pinchen et al. taken alone or in combination with other references fails to particularly teach that the method and web shaped packaging material comprising means for measuring a predetermined magnitude in a first portion of the web to form a first package, and providing a second portion for forming a second package with information of the measured magnitude as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
